Labelling Machines Ltd

Since 1993 Sovereign machinery has been known for its high-quality design, reliability and ease of use. Our stainless-steel systems are suitable for almost any production environment with hundreds of installations all over the world.

We manufacture a full range of Self-adhesive labelling, Shrink and stretch sleeving systems.

All our machinery is manufactured at our facility in Banbridge, Northern Ireland, equipped with the latest CNC laser cutting, milling, turning and punching machinery. We also boast one of the finest stainless-steel fabrication facilities in the country which allows us to provide clients with a comprehensive range which spans from small units to complete bespoke production lines.

# *Sovereign*

## *Labelling Machines*

Sovereign are a TOSHIBA Robot integrating partner with several successful systems installed. We have used both SCARA and 6-AXIS robots for loading/unloading product or using the robots to orientate and present difficult to handle components to the labelling system. Each robot is fully integrated into the machine Control system making setup and change-overs both quick and exact.

The Sovereign range of heat-shrink sleeving systems, highly advanced and innovative full-body and tamper-evident sleeves covering a wide speed range.

The Sovereign range of stretch sleeving systems, servo controlled in-line stretch sleeving labeller to apply a 360 degree surround pre-printed plastic film to a product, effecting a close bond to its contours, without the need for adhesive or heat.
