

Sovereign

LABELLING MACHINES

A part of the ENE Group

Front Back & Wrap Labeller

The Sovereign 140 & 200 range of servo driven applicators are both adaptable on this style of machine to ensure:

- Accurate & consistent label placement
- High throughput speed
- A reliable & efficient labelling process

Specification	
Label Size	Up to 135mm or 195 mm wide
Speed	Up to 400 products/min
Label Reel Size	300mm Ø (76mm Ø core)
Electrical Supply	220/230V Single Phase (6 amps)

Features

- Variable speed Servo driven applicator head.
- Single point nip roller drive assembly for accurate label control.
- Adjustable label roller web guides.
- Optical label sensing – Available for all types of label media.
- Thermal overprinting & Inkjet options.
- Powered top stabiliser belt - option.
- Handwheel adjustment for lateral and vertical product set up.
- Stainless steel construction.
- Spring loaded wipe down flap / roller assemblies.

- 0-35 m/min standard web speed (Up to 400 ppm).
- Label stopping accuracy to +/-0.5mm.
- Designed and manufactured for low cost of ownership.
- Software and machine compatible with thermal coders, printers, scanners and configurable to suit site specific requirements.
- Simple to use operator touch-screen controls with I/O diagnostics and stored product set up recipes.
- Additional specification options available to suit all applications.
