LABELLING MACHINES

A part of the ENE Group

## Monarch Dairy Labeller

The Sovereign Monarch, dairy labeller is an iconic member of the Sovereign range of machines. It has been designed and manufactured specifically to meet the operational demands within the dairy production environment.

- Featuring auto-changeover facilities, as standard on our twin head machine, to ensure zero downtime
- Powered unwind for accurate label control
- Full hygienic, stainless-steel construction

Specification	
Label Size	Up to 135mm wide
Speed	Up to 300 bottles/min
Label Reel Size	300mm/400 Ø (76mm Ø core)
Electrical Supply	220/230V Single Phase (6 amps)

## Features

- Sovereign Monarch variable speed Servo driven applicator.
- Powered rewind for increased label control.
- Single point nip roller drive assembly for accurate label control.
- Adjustable label roller web guides.
- Optical label sensing – Available for all types of label media.
- Powered top stabiliser belt.
- Handwheel adjustment for lateral and vertical product set up.
- Full Hygienic stainless steel construction (Suitable for washdown).
- Spring loaded wipe down flap assemblies for 3-panel application.

- Venturi air unit for accurate control of pre-dispensed label.
- 0-90 m/min standard web speed (Up to 300 bpm).
- Label stopping accuracy to +/-0.5mm.
- Designed and manufactured for low cost of ownership.
- Software & machine compatible with thermal coders, printers, scanners and configurable to suit site specific requirements.
- Simple to use operator touch-screen controls with I/O diagnostics and stored product set up recipes.
- Additional specification options available to suit all applications.
