

# Sovereign

LABELLING MACHINES

A part of the ENE Group

## Aegis VI Vertical Sleever

- An extremely versatile machine capable of applying full body, part body & even tamper band sleeves
- Fully stainless steel construction with interlocked guarding system
- Servo driven rotary operated film cutter.
- Low ongoing maintenance & spare component costs.

Specification	
Product Diameter	Up to 100mm
Speed	Up to 200 packs/min
Sleeve Reel Size	400mm O/D 127 mm core diameter
Electrical Supply	220/230V Single Phase 6 amps

## Features

- Versatile full body sleeving & tamper banding system.
- Powerful A/C servo driven material feed.
- Built on a substantial stainless steel frame with poly carbonate viewing panels.
- Range of film processing units including tear tab cutters and film perforations.
- PLC control with touch screen interface
- Recipe storage facility for ease of setup.
- Heat tunnels to suit all applications.
